TELEGRAMS TO STANDARD.

By direct cables via Lisbon.

Cairo, 5th.—It is said that orders have been received here from England to concentrate troops at Alexandria, in order to gradually evacuate the country. The news has been received here with satisfaction.

Paris, 5th—The Papal Nuncio here has left in haste for Rome, summoned by the Pope, to consult him as to the difficulties raised as to the nomination of French Cardinals.

Madrid, 5th—Government has secured a loan of 50,000,000 frs. from Paris bankers, in spite of the opposition of Parliament, public opinion and the press, whose attacks on the Government are more bitter than ever.

London, 5th.—The Cabinet Ministers who have been questioned by several journalists as to the news about the evacuation of Egypt, are very reserved on the subject; but it is thought that there is some foundation for the news

Berlin, 5th—Since Saturday there has been no case of cholera here, and the public health is in a normal condition.

New York, 5th—The monument to Columbus, presented by Italy to the United States, has arrived here.

Paris, 5th—President Carnot was enthusiastically received by the crowds at all the railway stations from Paris to Chambery.

At Aix-les-Bains he stayed for a few hours to visit the King of Greece, and he received a visit from the Russian Chancellor de Giers. President Carnot at once returned the visit; and de Giers had a long conference with M. Ribot, French Minister for Foreign Affairs.

President Carnot was received this morning at Chambery with indescribable enthusiasm.

Great satisfaction is expressed here at the interviews between Carnot and Ribot and de Giers.

Genoa, 5th—The number of visitors here is extraordinary. The King, Queen, Prince of Napoles and Duke of Aosta will arrive here on Thursday.

Amongst the festivities will be two balls in the Town Hall and another at Cornigliano in the palace of Deputy Raggio, a performance in the San Carlo theatre and illuminations in the city and port.

The naval review is shelved, to avoid rivalry between the different nations.

(Per Havas Agency.)

London, 4th—Cholera has disappeared completely from England. For several days there has been no fresh case anywhere in the kingdom.

The weather is much cooler.

Paris, 5th—President Carnot arrived at Aix-les-Bains yesterday and visited the King of Greece. Ribot and Freycinet paid a visit to-day to the Russian Chancellor de Giers.

Brussels, 5th—The marriage of the heir to the Austrian throne, Archduke Francis Ferdinand, and the Princess Clementine of Belgium is finally settled.

Rome, 15th—The elections will not take place in the middle of October as expected, but early in November.

Paris, 4th.—Cholera is increasing again here.

Rio, 4th.—Count Leopoldina and some others of the political exiles have returned to this city.

(To the "Prensa".)

London, 4th.—Cholera is declining all over Europe, with the exception of Paris.

Great misery prevails amongst the 10,000 tin-plate workers thrown out of employment in Wales.

The cholera is considered as already stamped out in England.

The Unionists and Non-Unionists had such a serious riot yesterday at the salt-works in Norwich that troops had to be called out to protect the men at work.

In Hamburg several hundred corpses of cholera patients are still unburied.

The North Atlantic Companies have resolved not to carry to the United States emigrants from infected parts of the Continent.

The statement that the Queen had written to Lord Rosebery to induce him to accept the Foreign portfolio is officially disproved.

Berlin, 4th.—The Catholic Congress at Mayence has declared in favour of the restoration of the temporal power of the Pope.

Herr von Schlozer, ex-Envoy to the Vatican, is in disgrace at court for having paid a visit to Bismarck.

No emigrants from Russia are allowed to cross the German frontier.

Rome, 3rd.—King Humbert was thrown from his horse at the military manœuvres at Spoleto and somewhat hurt.

Budapesth, 3rd.—The Pope has consented to the introduction of the Slav Liturgy in the Catholic and United Churches of Russia and Poland. It is asked if this is a sign of the rumoured alliance between France, Russia and the Papacy.

Vienna, 3rd.—The Directors of the State Railway have decided, that the trains shall not cross the German or Russian frontiers; nor the trains from these countries pass into Austria. Last night several trains were stopped at Lemberg.

Paris, 3rd.—The Congo Free State has lost a lot of money through investing in Argentine, Brazilian and Chilian Bonds.

Hamburg, 3rd.—Official figures show that the cholera mortality here is much worse than in any visitation since 1831.

San Francisco, 3rd—England has taken possession of Bert Island in the Pacific Ocean.

THE NEW PARLIAMERT.

LORD ROBERTS SENT TO CABUL.

London, Aug. 6th.

At noon yesterday the Speaker-Elect took the chair in the House of Commons. After a lapse of a quarter of an hour Yeoman Usher of the Black Rod entered, and advanced to the table to summon the Commons to the other House. On arrival they found the Lord Chancellor dressed in the red gown of a peer of Parliament, seated on a bench between the Throne and the Woolsack, in company with the Duke of Rutland, Lord Balfour of Burleigh, Lord Knutsford and Lord Cross. These were the Lords commissioned by the Queen to receive the Speaker, who "presented himself with all humility for her Majesty's gracious approbation." This was conveyed by the Lord Chancellor, whereupon the Commoners retired, and the Lords went forward with their business of Swearing-in.

On returning to the Commons, the Speaker reported to the House his visit to the Lords, and the approval signified by the Queen of the selection of their Speaker. Mr. Palgrave, the Chief Clerk, administered the oath to the Speaker, whose name was written first on the roll of the New Parliament. Immediately afterwards Sir M. Hicks-Beach, Lord George Hamilton, Mr. Matthews and other Ministers were sworn. Mr. Davitt arrived early on the scene and was sworn in without controversy. Mr. Keir Hardie, sauntering down the House, wearing a cap of nondescript appearance, was sternly called to order by the Speaker, not because his headgear happened to be unconventional, but because no member may move about the House with his head covered. Mr. Naoroji elected to affirm; although Lord Salisbury called him a black man, he is as white as most Englishmen.

The City Press learns on authority that the purchaser of the Althorp Library is Mrs. Rylands, of Longford Hall, Manchester, who intends presenting it to that city. It is said that she paid Lord Spencer £220,000 for the books.

The meeting of the British Association at Edinburgh is attended by 2,000 members. Yesterday there was a reception in the rooms of the Royal Scottish Geographical Society, and simultaneously, Mr. Robertson conducted a large party through the ancient Palace of Holyrood. The sections have been well attended and steady work is done. In the Geographical Section Mr. John Thompson's superb photographs illustrating his paper on the extraordinary rainfall of Formosa. The chief attractions in geography have, however, been the Prince of Monaco's paper of meteorological observations in the Atlantic Ocean. The Prince with the Princess has come to the Firth in his yacht, and he read his paper in fair English. Mrs. Grove in the afternoon read a paper on her travels in Chili. There is no section so well furnished as that of Economics and Statistics. The first three papers were by clergymen, the subject being that of old age pensions. The President truly described the first paper as able, clear, concise and to the point. Its author was the Rev. Moore Ede, who holds that the present workhouse system is demoralizing, and who would have half the cost of old-age pensions defrayed by taxation and the other half by other means.

Bombay, Aug. 5.

It has now been definitively settled that Lord Roberts shall be at the head of the British Mission which the Indian Government has decided to despatch to Afghanistan, provided the Ameer consents to receive it. The place of meeting will probably be Jelalabad, and Lord Roberts will take a suitable escort from Peshawur.

Simla 5th

It is believed that five Russians or Russian subjects were killed and ten prisoners taken by the Afghans in the recent collision on the Alichur Pamir.

Tangier 5th

By command of the Sultan the Governor of Tangier has issued peremptory orders to the villagers in the vicinity of this city to join with the least possible delay the expeditionary force against the Angherites, failing which they will be imprisoned and their cattle and other belongings seized. More than a hundred villagers who disobeyed the Governor's orders have already been lodged in the gaols at Tangier.

Vienna 5th

A party of American tourists who intended to visit all the larger towns of Russia has gone from Moscow to Nijni Novgorod for the Fair, in spite of the cholera reigning there. Four members of this company are said to be down with cholera, and the cases are said to be serious. The service of through carriages from Constantinople to Vienna has been suspended, like the service from Warsaw to Vienna, for fear of the introduction of the cholera.

New York, 5th

A vessel, well manned and armed, recently left Key West, with a view to effecting the freedom of Cuba The expedition is said to be under the command of Charles Rolloff.

Dublin, 5th

The greatest activity has prevailed in both sections of the fleet since the declaration of war to-day, and all along the coast the utmost vigilance is observable by the military and coastguard forces. The torpedo boats commenced operations to-night. They steamed out from Kingstown as soon as it became dusk. The Duke of York and Sir Charles Cust were telegraphed to to rejoin the Melampus, and Vice-Admiral Fairfax rejoined the Royal Sovereign. The fleet is expected to make an appearance in Dublin Bay within 24 hours. During the manœuvres the ships of the fleet will have no lights out at night, so that great caution must be exercised by the mercantile marine.

INDEMNITY FROM CHILI.

Washington, July 19—Secretary of State Foster announced to-day that an entirely cordial and mutually satisfactory settlement had been reached between the Government of the United States and Chile respecting the indemnity to be paid by the latter on account of the assault upon the crew of the Baltimore at Valparaiso on October 16 of last year.

The last published dispatch upon the subject was sent by Mr. Blaine on January 30 last, in which it was stated that the President believed that the subject of reparation for the Baltimore affair was capable of adjustment by the usual diplomatic methods, and that the sense of justice of Chile would doubtless enable the two Governments to make honorably a full end of the whole matter. The subject rested in this condition till the entrance into the Chilian Cabinet of the present Minister of Foreign Affairs, Senor Errazuriz, last month, when he communicated to Mr. Egan the disposition of the Chilian Government to come to an adjustment of the Baltimore indemnity.

On July 1 Mr. Egan was informed by Secretary Foster that the President was much gratified at the indication received of the disposition of the Chilian Government, and that he did not doubt that it would be ready to make a liberal indemnity to the families of the deceased and to the wounded survivors, and Mr. Egan was instructed to ascertain the views of the Minister of Foreign Affairs on the subject.

Under date of the 13th instant, Señor Errazuriz addressed Mr. Egan a note, placing at the disposal of the latter the sum of $75,000 in gold, and asking him to cause it to be distributed among the families of the two seamen who lost their lives, and to the surviving members of the crew wounded in the affair of October 16. On the 17th instant Mr. Egan replied, cordially accepting the offer of the Chilian Government as a frank, friendly and entirely satisfactory settlement of the deplorable occurrence at Valparaiso.

The Baltimore indemnity finds no exact precedent in the diplomatic history of this country. Probably the case nearest in point is that of the Virginius, seized on the high seas by a Spanish gunboat and taken into a Cuban port, where a number of the crew and passengers were summarily shot, on the charge of being engaged in an insurrectionary movement. Some of the sufferers were citizens of the United States, and some British subjects. The Spanish Government paid to the United States for each sailor and citizen killed about $2,500. The British Government received for each colored subject shot $1,500, and $2,500 for each white subject.

In the recent instance of the Italian prisoners killed by the mob at New Orleans, the United States paid to Italy a lump sum of $25,000. It was claimed that four of the prisoners killed were unquestionably Italian subjects, and that five others could not legally have become Americau citizens, which would make the indemnity about $2,750 per capita.

In cases of accidental killing by negligence there are several instances where the Government in fault has reached an approximate valuation of human life in tendering indemnity. In 1834 two French subjects were killed and four seriously wounded by a shotted gun fired by a saluting American frigate at Toulon, and the United States paid to France $9,600, about $2,500 for each man killed besides the wounded. In 1887 four Japanese were killed and several crippled by the explosion of a shell which had been fired against a Japanese island by the Omaha in target practice, and the United States paid to Japan $14,000 for the families of the sufferers, about $2,000 for each man killed and $1,000 for each one wounded.

During President Hayes's administration $1200 was voluntarily paid to the Turkish Government for the family of the Ottoman subject killed at Smyrna by a sailor of a war vessel of the United States. As regards indemnity for injury and imprisonment, the United States accepted from Spain $750 for each Virginius sailor detained or injured.—*The North American.*

LATEST FROM MONTEVIDEO.

Monday Evening.

It appears that the derailment which occurred on Thursday night on the Central Line, near Goni Station, was caused by a cow which tried to horn the cow-catcher. The engine, which was thrown by the violence of the shock off the rails, was destroyed, and about 30 animals in one of the cattle-waggons attached to the train were killed. Luckily none of the passengere were hurt, but the engine-driver and fireman were injured. Traffic was interrupted for some hours.

An intimate friend of President Herrera is reported to have stated that the five-million loan was first proposed by an agent of a Parisian banking firm to the Uruguayan Consul in Paris. The idea was immediately accepted by the President, who was not long bringing negotiations to a head. Mr. Enrique Kubly y Ortega was entrusted with the management of the business in Paris, and it was through him that the negotiations have been brought to a satisfactory close. On Saturday a power was sent to him to sign the bond.

It is reported that Colonel Ricardo Estevan will be shortly appointed to the command of the artillery here.

The races yesterday at Maroñas were largely attended. The winning horses were :—Progreso, India, Reverie, Tupiel and Gitana.

In view of the severe quarantine regulations, several importing firms have telegraphed to Europe suspending orders.

The weather is very fine.

PROVINCIAL NEWS.

No less than five columns of our esteemed Cordoba contemporary, the *Porvenir*, are taken up with Engineer Stavelius's report on the famous San Roque Reservoir. This reservoir is one of the great engineering feats of the country. It supplies water to the city of Cordoba and is, moreover, occasionally used to direct the thoughts of the Cordobese to what they may expect in the next world, as happened the other day, when some wag started the rumor that the dam was giving way and that Cordoba would be swept away. If an indecent haste to abandon the cherished Lares and Penates be an indication of an uneasy conscience, then the Cordobese must feel guilty of some crying offence, for there was a pele-mêle rush to leave the city. People abandoned their houses and furniture and made for the neighboring hills. They refused to return to the city until they were assured as to the soundness of the reservoir. Hence Engineer Stavelius's report. We have glanced over this document and gather from it that the San Roque Reservoir has a larger capacity than any other artificial reservoir in the world, and that the walls are theoretically safe, provided the best materials have been employed in their construction. This latter statement reveals a host of possibilities, and it is to be hoped that civilization will be spared such a disaster as the wholesale drowning of the Cordobese, for "theoretically" only the very best elements seem to have been employed by nature in the physical and mental composition of the learned inhabitants of the "doctoral" and crisis-stricken city.

"Practically," says Engineer Stavelius, "the walls have been built with negligence. The lime employed seems to have been badly burned. A piece I took out and placed in the water soon became quite soft. Other pieces soon crumbled to dust on being rubbed on the palm of my hand. I remarked that the concrete had not hardened." Mr. Stavelius goes on in this way to take walls to pieces, and comes to the conclusion that the dam would not be able to resist the maximum volume of water which the reservoir is calculated to hold. In his opinion, the reservoir is just able to safely hold water to a depth of 22 metres (34 metres being the maximum).

The publication of Engineer Stavelius's report has by no means eased the minds of the Cordobese, who are seriously thinking of seeking a safe if uncomfortable refuge on the tops of the hills; and, we understand, the Governor is not at all pleased with Mr. Stavelius's pleasant way of shewing the dam to be "theoretically" safe.

Advices from Pilar state that, in the course of a quarrel there on Friday night, Mr. Adelaido Llanos, member of the Municipal Corporation, was killed by a young man named Trisoca, who was wounded.

There is another Municipal storm brewing in Rosario. The Intendente is at loggerheads with the Corporation and threatens to call in the police if they don't behave themselves.

THE LATE REAR ADMIRAL B. CORDERO.

Early yesterday morning this distinguished officer, whose name is identified with the progress of the Argentine Navy, passed quietly away at his residence in Calle Santa Fé. He was a true sailor, having entered service when a mere boy and fought under our illustrious countryman Admiral Brown. Young Cordero assisted in the naval engagement off Costa Brava with Garibaldi's flotilla. His has been a long list of services to the State. In the last ten years he had withdrawn from active service, but he made good use of his time by applying himself to the task of reforming and improving the navy. It was he who brought out the splendid ironclad Almirante Brown from Europe. He founded the Marine artillery school, and it was mainly due to his efforts that the fleet has been reinforced by the addition of new vessels, built in Europe.

Rear-Admiral Cordero entered the navy in June 1841, and immediately began active service on board the Belgrano, which formed part of the blockading squadron at Montevideo under the command of Admiral Brown. He was present at the attack on Paysandu and took part in all the wars in which the Argentine Republic has been engaged since that date, always distinguishing himself by his courage and intelligence. When the navy was reorganized under the Government of General Sarmiento, Rear Admiral Cordero was appointed to the chief command.

The following committee of officers was yesterday appointed to guard the remains :—Commodore Ceferino Martinez, Captains Lawry, Beccar, Cuell, Rivera, Segui, O'Connor, Pastore, Muscari, and Lieutenants Albarracin, Ortiz, Leonetti, Tersidor, Garzon and Ballesteros. Outside the house there is a guard of honor comprising 20 men under Capt. Ballesteros. Yesterday a sculptor took a plaster cast of the old officer's face.

WHERE THE LOCUSTS COME FROM.

We call attention to the following interesting letter, which we find in the columns of one of our Argentine colleagues :—

Dear Sir.

In the course of my excursions to the north of the Republic and particularly in Bolivia, I have often seen clouds of locusts flying sometimes southwards, sometimes northward, other times eastward, but very rarely to the west. Where did these locusts come from? In crossing the Cordillera provinces and Santa Cruz de la Sierra in Bolivia, I stopped at a place called Gutierrez and there I was told that every year from the 12th to the 15th September or October—I forgot which—the first cloud of locusts arrived at that place. As it was winter when I gathered this information I continued my excursions but returned to Gutierrez eight days before the date I have mentioned in order to verify the information. Well, on the 13th. the first cloud of locusts arrived in a northerly direction; a few days afterwards came a second cloud, then a third and finally a fourth. These clouds subsequently moved in a contrary direction, to the Chaco, Paraguay, Jujuy, Salta and Santa Fé. I then made inquiries as to where these locusts came from and I received the same reply from settlers as well as Indians—these locusts came from some lakes in the south on the banks of which they remained (sometimes a yard thick) during the winter. The eggs develop in the springtime and the young locusts begin to fly more or less about the date I have already mentioned.

I wanted to visit these lakes, but owing to the terrible ravages of small-pox amongst the Chiriguano Indians I had to give up the idea, so that I could not verify the degree of truth in the statement I had heard as to the origin of the locusts.

When I was in Zaipuru I had occasion to speak with two persons from Lagunillas who confirmed the story of the lakes. These lakes are a good distance away, the intermediate country being quite unknown and in the hands of the Indians. They are situated in the centre of a valley about 120 miles long and are called the Laguna Mosquera, because the banks are infested with flies, the Laguna Limon, and the Laguna Lagunillas. It is on the bank of this last one that the locusts breed. If in winter the eggs could be destroyed, there would be no locusts.

Some people may say that the locusts, or a good many of them, come from the Chaco and Paraguay. I have travelled over the Chaco in the Sola expedition and I am convinced the locusts do not come from there. I may say the same of Misiones, through which territory I have travelled.

If the Foreign Affairs Minister take the trouble of getting a report on the locusts from the authorities and settlers at Lagunillas, he will obtain a confirmation of what I have stated.

A LONG FELT WANT.

Messrs. Horrocks and Fulford, the well-known, old and experienced railway employees, who for many years occupied important positions on the Northern and Ensenada Railways, have now established with the necessary authorization and concurrence of the principal Railways of the country a "General Railway Agency" where the travelling public can obtain all information respecting Railway tariffs, freights, passages, etc., thus serving the public as intermediaries between the latter and the Railways, with advantage to both, undertaking the arrangement of special trains, reserved coaches for pic-nic parties and other excursions; also reserved compartments, beds and ordinary passages, dispatch of goods and valuables by most direct routes.

They also undertake the amicable arrangement of any claims for losses or differences which may arise between the public and the Railways, checking of guias, and in fact everything appertaining to the conduct of any and every description of Railway business.

Moreover the Agency is organizing a complete service of through booking, of combination tickets and telegrams to any destination, all of which will be of the greatest utility to the public, who will thus be saved a great loss of time which has been hitherto spent in having to apply personally to the Administrations of the different Railway most of which are a long distance from the business centre, in which are situated the offices of the Railways Agency, at which place, (Calle San Martin 185) there will always be displayed and at the disposal of the public, free of charge, all the time tables, tariffs and general information usually required by the travelling public.

Considering the experience and competency of Messrs. Horrocks and Fulford in Railway business, we anticipate and think that their enterprise will merit the greatest success and should meet with the strong support and approval of not only the Railway Companies, but also of the general public, to whom, especially in Buenos Ayres, it has been a long felt want.

THE WORLD'S FAIR CLOSED ON SUNDAY.

Mr. Editor.

As appears from a paragraph in your edition of 3rd inst. you are not abreast of the latest news—Galveston and the rest notwithsanding—for I find in papers to hand of July 28th that Congress in both Houses passed a bill prohibiting opening the World's Fair on Sunday. This action was opposed strenuously and, strange enough, was favoured by liquor dealers, because saloons, beergardens, concerts, etc. would be more patronized thereby. But the supreme legislative power rose above all and carried the point above business, traffic, liquor and sects. It established principles fixed and firm of religious sentiment, and such legislation tends to good morals and public and personal welfare. Opening the Fair on Sunday would lessen respect for the day in every city and town in the country—so thought the legislators.

By law in the United States ordinary business is prohibited on Sunday. Such prohibition is believed to be in harmony with the best interests of the people, and the Government throw the weight of their influence on the side of a due observance of the day. Hence the action of Congress: and it would be well for other American Governments and Congresses to imitate the great Northern model.

PRIVATE BANKING.

Sept. 3rd.

Mr. Editor,

With reference to an article of yours some time ago about a private bank in Mercedes, started by Mr. Lowe, I beg to ask, how can such an undertaking succeed, when the law implies a tax of 20,000 dollars a year on the concern.

I know a gentleman who has the idea of starting a business of this kind in a town in one of the upper provinces, but hesitates on account of the tax.

Will you please inform me whether a private banking establishment can be started and carried on without paying the tax of 20,000 dollars, and in such a case what would the tax be?

By Thomas Hobbes of Malmesbury.
London,
Printed for Andrew Crooke at the Green Dragon in St. Paul's Churchyard.

Even in London this ancient book would be regarded as a great and valuable curiosity; and, as the pages are old, we request great care in turning them over. The frontispiece is beautifully illuminated, and to the savant will afford hours of study.

CONGRESS.

THE DEPUTIES.

Dr. Gilbert rang the bell for business at 3 p.m.

The first thing was a Message from the Executive asking for $458,000 to pay salaries overdue on that precious concern the Central Northern Railway

A "Monument" Society asked for a subvention, and Deputy Ruiz for leave of absence with full pay, which was granted.

Deputy Alvarez presented a Bill to amnesty deserters from the army.

Several Deputies asked for $100 a month for Sr Berruti, to enable him to learn music in Europe.

Deputy Quesada presented a Bill in reference to the eternal Bateman Legacy.

The debate on the Grumbein concession was renewed, and Dr. Gonnet made a long and eloquent speech against it.

It was approved in general, according to the Committee's report; but in the debate "en particular" clauses were inserted to save the rights of the squatters at Santa Cruz, giving them the same rights as Grumbein himself.

The Executive sent a message stating that it knew nothing as to who got up the riot at the manifestation to the President-elect.

Dr. Alcobendas, and General Campos spoke on the subject.

The debate on the "Extinction of Locusts" was postponed, and the House rose at 6.30 p.m.

EDITOR'S TABLE.

Yesterday was almost a day of the white-hat order. Smiling Spring was in the air; ladies in "medio-tiempo" costumes thronged the streets and shops; the open tram-cars were crowded; the air was just at the point calculated to throng the bars and restaurants with "smiling" customers; the news that Dr. Romero is to be the new Finance Minister put the whole commercial community in flashing spirits, and everybody went home to dinner as happy as if some old hunx of a bachelor uncle or a frump of a maiden aunt had "shuffled off this mortal coil" and left him a comfortable fortune. It was the most hopeful day for a long time; and only the politicians were in bad humour.

Rear Admiral Cordero died early yesterday morning, and his death causes sincere regret. He was a sailor of the good old school, having learned his trade from the South American Nelson, Admiral Brown.

An evening colleague says that the President-elect has not yet accepted Dr. Romero's conditions for accepting the Finance portfolio.

The President and President-elect of the Republic spent Sunday in inspecting several of the military barracks in town. On Thursday they will pay a visit to the troops quartered at Santa Catalina.

Our rehumatic subscribers groaned awfully yesterday, in spite of having their pockets full of Mr Daly's potatoes. They declared that Santa Rosa will be here to-day or to-morrow.

Whoever wants to go on the Columbus tourist trip should apply at once at 250 Calle Fiorida. The 4th of April is the day for the start from this city.

The robbery in the house of Mr. Romero, the future Minister of Finance, whose nomination knocked the wings off the Gold Eagle yesterday, is the most daring thing for some time. Four men entered the house, cutting through several glass doors, and got to the bedroom of Mr. and Mrs. Romero. The latter heard them, and struck a match; she saw them distinctly, but was so terrified that she was afraid to awaken her husband. The burglars then entered her dressing room, took several thousand dollars worth of jewels, and decamped.

We beg to call the attention of all lovers of Polo, Cricket, or Lawn Tennis to the advertisement calling a meeting for the formation of a Club in San Jose de Flores. It is to be hoped that the Flores men will be "up to date" this time. Hitherto there has been a certain amount of "inglorious ease" in the "Village of the Plain" in reference to sporting matters which other suburbs take up as if their lives depended on the issue; and perhaps they do, as all manly sports tend to prolong life.

The "mercería" San Nicolas in Calle Corrientes was burned to the ground on Sunday. Needles and pins, stays, petticoats, lace, linen, boots and slippers, feathers, flowers and feminine fol-de-rols of all kinds ended in smoke in half an hour. The loss is $20,000; insured for $10,000; and the owner and his assistant have been locked up, to console them.

Accidents, thefts and stabbing cases were more numerous than usual, on Sunday last. A grocer in Calle Victoria was "damnified" to the tune of 2,000 shinplasters by a bosom friend of his

The Rural Society, like the gallant lot of old and middle-aged gentlemen they are, have turned their attention from wool grease and sheepskins to the ladies, and intend to hold montly Flower Shows from September to April. This is a step in the right direction. Horticulture is much neglected in this country, although none on earth can beat it in beautiful flowers.

There was an intensely funny rumour in town yesterday to the effect that a well known merchant had been challenged to the field of honour by the head of a public department, because he had complained to the Government of the great delay in getting an "asunto" despatched in the said office. If merchants are to be asked to become targets for the pistols of Government officials because they expect to have their business attended to properly, then, the sooner the former shut up shop and retire from business the better for themselves.

Nothing (politics excepted) was spoken of in town on Sunday but the shocking tragedy in the National Theatre on Saturday night while the performance of La Traviata was in full swing. The victim was ex-Lieutenant Genassini of the Italian army, who was connected in some way with the recent 'affaire Tetrazzini'. He was seated near the side entrance in the pit when Mr. George Brown Arnold, of the *Argentino* came in. The Italian at once rose and gave him two slaps in the face. Arnold took out his revolver, fired twice, and the other dropped dead, shot through the heart. The scene that followed was tremendous. Dozens of ladies screamed, others fainted, and there was a general rush for the doors. All the families left the theatre, and the manager announced that the performance was suspended for the evening. The two men had been at enmity for some time, and the general version current is that there was, as usual in such matters, a lady in the case.

The Argentine Consul in London has wired to the Minister for Foreign Affairs that there have been no fresh cholera cases in any part of England, except those in Liverpool, imported.

The following are the principal prizes of the Lotteria Agentes de la Capital, drawn yesterday:—1746, 20,000; 4250, 1000; 2851, 5054, 500; 1811, 8111, 8851, 200 each; 4068, 1879, 4202, 1957, 2456, 4800, 8836, 100 each.

Those families who have received a circular from the British and American Benevolent Society soliciting their adhesion to the proposed Costume Dance on 3rd. October, and have not yet replied are requested to answer at once, so that the Committee can decide whether the dance shall take place or not.

Our sporting friends were much in evidence yesterday in Calle Piedad, admiring the handsome silver cups which are on exhibition in the windows of Messrs Gath and Chaves. One is for the winner of the St. Leger, and the other the "Ayrshire Cup, is for the best horse over the steeplechase course. Thursday next is the day appointed for the decision of these important events at Hurlingham; and as there are several other good races on the card, all that will be wanted will be fine weather to ensure the meeting on that day being the grand sporting event of the season.

Our London friends began the week yesterday with fine weather. News came via Lisbon in twelve minutes.

Sunday was a lovely day at the Village of the Heights. Several carriages arrived from Belgrano, Flores and San Martin with visitors, and the cars of Lacroze's steam tramway were crowded.

The printers are now engaged on the last sheet of the new Handbook, which reaches 720 pages, and will be by far the most complete work on the River Plate yet published. No advertisements can be received after 4 p.m. on Saturday. The impression is 2,500 copies, price 5$ currency, bound in cloth, with a complete rail way map for the 3 republics.

To-morrow the Map of Ireland will be withdrawn from Mr. Peuser's window, and given to the engraver. Irishmen in the camp who wish to subscribe for a copy (price 25 paper dollars) will please send their names to this office. The proceeds go to the Boys' Orphanage: Mr. Peuser generously prints it free of charge.

In reference to the complaint we published the other day from Messrs. Childs and Co., the Post Office authorities inform us that orders have been issued that whenever letters properly stamped are received from foreign countries, especially from Banda Oriental, they are to be delivered, even if the stamps on them have not been obliterated.

We hear that three eminent doctors inspected the port lands on Sunday and found a truly awful state of things—3000 people living without a single sanitary convenience necessary for the merest decency. If cholera break out here, a terrible responsibility will rest on the Health Board if this shocking state of things be not remedied at once. We can personally vouch for the abominable stench that prevails in the neighbourhood, as we were there on Sunday and got away from it as fast as we could.

The annual Show and Fair at Mercedes was duly opened to the public with perfectly fine weather, and a great concourse of people from that and other partidos. The show of cattle is small, almost nil, and the same of horses, but the sheep section is well filled up; yesterday sales began, and consequently we must await the result. To judge by the number of sheepfarmers present many purchasers are awaiting. The industrial and machinery department is very small; only a few carriages, ploughs and other implements. A huge iron safe, to be sent to the Chicago Exhibition, and made in the town, is exhibited by the maker, Nuncio Roman by name. He deserves credit and a premium for his work, as his tools and other materials are of the most primitive and poorest kind. He is an Italian.

The Rev. Dr. Smith A. M. will preach on Sunday, 18th inst, at noon, at the Cabaña, district of Canuelas; and will visit the Ferguson district the day before.

There were 3,000 citizens of all classes at the regatta in La Plata on Sunday. The Capitania boat won a 2,500 metres race. A boat from the barque Armandale won another of the same length. A boat from the Gloria ditto, ditto, and the Trovatore carried off the 1,500 metres. The funniest thing on earth occurred to the Junch. By some unaccountable mistake, the repast was served on board the Portugal, instead of the Presidente Roca, to which the families were invited. The result was that Tom, Dick and Harry, with their wives children, aunts and cousins, poured into the former and not only devoured everything to the last ham bone, but ate the plates, glasses, knives, forks and spoons. That *was* a lunch.

The *Tribuna* of Montevideo says that Mr. Cleary is on his way to the R. Plate with another English dramatic company. This is the first we have heard of it.

Our usually serious contemporary the *Montevideo Times* is responsible for the following :—

"A conversation overheard—"The liquidators of the English Bank have got their six months"—"What? Hard labour?" "No! Moratorium"—"Oh! I beg pardon, I was thinking.—" And then the band began to play."

Here is something interesting about the origin of the stoves in which our daily meat is boiled, baked, or burned to rags by the average (very average) cook of the period :—

"One of the first attempts at making a closed stove of iron was made by Cardinal Polignac in 1709, and seven years later an attempt was made to introduce stoves of this kind into England, but without success, owing to the prejudice of English people in favor of seeing their fire. The Franklin stove was invented by Dr. Franklin in 1745, and a quarter of a century later, in 1771, and during a few years following, the discoverer of electricity invented several other stoves—one of which was invented for burning bituminous coal and which had a downward draft. Count Rumford was the next person to make an invention looking to the improvement of stoves, and during the ten years between 1785 and 1795 devised several improvements."

Commercial Bank
When they finish the three cornered fight going on at present between the Landlord the Directory of the above mentioned Bank, and the old Lady Justice, as to whether or not the Directors must return the rooms in our rear lately occupied by them, in the same condition as they took them, we shall be able to fit them up to make room for our marine and Hail Insurance Departments, trusting that until that time our increasing clientage will kindly excuse the annoyances that follow from lack of space
La Porteña insures all kinds of grain crops against Hail Storms, at fair premiums, and notes of responsable parties are accepted, payable at the end of the harvest.

ON 'CHANGE.

Monday, September 5th 1892.

The week has opened with the pleasing announcement of Dr. Romero as our new Minister of Hacienda. Dr Saenz Peña could not have named a more popular, a more capable man. Although a young man he has already filled various posts of high trust; he was Governor of the province of B. Ayres, Minister of Hacienda under President Roca, and is one of the most distinguished lawyers of B. Ayres. Amongst his clients are some of our great foreign companies and our principal commercial houses. His opinion as a lawyer was always consulted in any great question of the market. He was president of the Caja de Conversion and resigned the post rather than allow any tampering by Congress with the fundamental credit of that institution, and his spirited conduct on that occasion increased his popularity in the market, where his name is synonymous with honour, rectitude, and fixed principles. It is well-known that he is strongly opposed to paper emission, Free banks "et hoc genus omne." His famous letter against the State banks and issues of paper money, published at a critical moment about two years ago, is still fresh in the minds of all; and the excellent impression produced at that time by that document is now enhanced by his appointment to the financial office of the new Government that will take the reins of power on 12th prox. If Dr. Romero maintain in his post as Finance Minister the views he has expressed in his retirement from Government office, it will be well for the country. Already his appointment has found a quotation on 'Change, for the gold ounce fell headlong, about one dollar since last Saturday morning.

Seventeen thousand ounces changed hands at the first ring; the price opened at $52.90 and closed heavy at $52.50, say 222½% premium. A few sovereigns were sold at $16.38, say 225% premium. The appointment of Dr. Romero to the financial portfolio of the new Government has knocked the bullish speculation on the head, and the whole market reeled this morning towards a fall. The whole market is now plunging into a bearish speculation; if carried to an extreme, it will defeat its purpose and create an enormous shortage.

Patriotic bonds were hard at 72.50 and Internal Bonds at 68 for cash and 68,40 for end of the month. Old Gas shares were firm at. 86. Catalinas were very active but weak, closing at 11.80. Obligaciones of the Banco Constructor were also weak, closing at 1.70. La Plata Cedulas very firm at 30 to 30.10. Municipal Consols were heavy at 58.50.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—
For cash.. 16,844 at

The arrivals of coal here and in La Plata for the fortnight amount to 28,500 tons. The stock of Cardiff coal on hand is so large that we do not require any more arrivals before the end of the year; prices have improved somewhat during the fortnight, but still they do not cover the cost. About 15,000 tons have been sold to arrive at from 6½ to 7½. Several cargoes of Glascow coal have arrived and sold as high as $27½ the ton; various lots have been sold on board at 6 dollars gold and two cargoes of coke have been sold to arrive at from 10½ to 11 dollars gold on board.

As regards salt, strange to say, the market is filled with Cadiz cargoes and the Rio Negro and Bahia Blanca salt seems only to be used for retail consumption; the saladeristas still prefer, spite of the heavy duties, the Cadiz salt, and it is most surprising that these cargoes keep arriving when the salt of the country is acknowledged to be infinitely superior; verily it takes a long time to change the current of trade in salt. 40,000 fanegas of Sal de Ibiza have come to this market, and more is on the way, and it is thought that these large arrivals will demoralise the salt market.

Although we are now getting up close to the shearing very little has been done in contracts for the new wool. Last week we heard of one sale or contract for the new clip, which, doubtless, will interest our very numerous readers in the countr. The wool is well-known, belonging to Sr. Backmann from his estancia Lincoln in the North, and comprises all the mestizo Lincoln and the bellies and mestizo Rambouillet for 8 nats the 10 kilos, deliverable on the estancia. It is probable that this week we shall have other sales to report. Very many of the "acopiadores" of wool have yet business pending from last year, and all these transactions have to be closed up before the new season begins. Most of these "acopiadores" have lost very heavily. They lost both ways, in the fall in the price of the article in the European market and in the fall in gold in this market. This time last year gold ruled 100 points higher than to-day, and the 'acopiadores' were buying all over the country; suddenly gold ran up some 40 or 50 points, owing to General Mitre retiring from being candidate for the presidency. Those who resold, availing of the rise in gold, made very handsomely, but the bulk of the buyers were caught in; they believed in the still further advance of gold and, being for the most part of a radical turn of mind, many of them have still up to the present held on to their wool in deposit, clinging to the hope that, no matter how much wool might go down in Europe, gold would eventually go up here. Terrible delusion! The losses have been tremendous: they must now be liquidated, and the sweepings of the deposits must, within 15 days, be shipped to Europe.

The following properties were sold at auction yesterday:—

The excitement in Rosario respecting the illegal export wheat tax is steadily increasing, which is mainly owing to the delay of the judge of the federal court, and our colleage "The Review" gives the following in its last number, which will very much interest all our commercial readers—

"The action of the Federal Judge with regard to recent embargoes by the collectors of the tax upon cereals has spread consternation among those who have depended upon him for protection against the exactions of the authorities. It is now seven months since the authorities first started proceedings against shippers of wheat, and in all instances, about forty, the Judge ordered the embargoes to be raised on presentation of a receipt of the Banco de la Nacion showing that the amount claimed had been deposited to his order there. In the case of the last embargoes, however, he has made a most inexplicable double on his provious decisions, and refuses to raise the embargoes unless the taxes claimed are handed to the agents of the Government, giving the people the right to recover the money from the Government if the tax is declared to be illegal. He bases his decision on the argument that he has no right to question the good faith and solvency of the Government, and that therefore the right course for objectors to the tax to pursue is to pay and protest.

"The exporters are taking steps to protect themselves in this altered state of affairs, and some anxiety is felt as to whether they will succeed in saving the wheat, etc., advertised for sale to morrow.

"The action of the Federal Judge is commented upon very severely, it being generally considered that to suddenly change his ideas, and to practically abandon the people he is appointed to protect, dos not redound much to his credit.

"Great dissatisfaction is felt at the delay of the Supreme Court in deciding upon the legality of the tax; it has frequently been authoritatively reported that the decision was about to be given, but it appears there is little chance of the judgment being given for a long time yet."

The following is a list of the amounts against which wheat is advertised for sale to-morrow:

Cheques of the Provincial Bank were done to-day at 38% discount; those of the National Bank at 21.50% discount. Bonos of the La Plata Mortgage Bank were in steady demand and improved in price; they closed at 21.80% of their face value. Exchange continued quiet but firm to-day at 47 3/8-½d. on London and francs at 4 98 to 5.00. A heavy taker is expected in the market at the end of the week.

The gold market rallied at the second ring and all the weakness of the morning disappeared. Six thousand ounces were sold for to-morrow; the price opened at $52.50 and closed at $52.70, say 223.80% premium. Sovereigns closed $16.40, say 225.38%. Both Patriotic and Internal Bonds ruled very steady at the morning's prices. Catalinas fell away all along the line in midst of the consternation of holders of the stock; they all looked crest-fallen and wondered at the causes of the sudden change in the stock; the price closed at 10.90 heavy, for to-morrow and end of the month. La Plata Cedulas were weaker.

The San Gothardo arrived at Montevideo to day from Genoa.

All the steamer agents met in the Platense office to-day to discuss Mr. Vucasovitch's project to establish a 'Veritas Argentino' in this port, and it was decided to ask Congress to throw out the measure, for sundry reasons, the main one being the obligation to inscribe, which is contrary to custom in all other countries.

There was a meeting this evening of the agents of ocean steamers, at which Messrs. Green, Donos Christophersen, Boadle and others were named to represent to the Finance Minister the serious injury to shipping interests caused by the want of water in the entrance channel to the Madero Port and Boca.

Amongst the passengers by the Magellan in quarantine on Flores Island there are 57 for this city.

A SPLENDID PROPERTY

9 yards front by 30 deep

Seven rooms, solidly built, bath-room, w.c., coach house, plastered ceilings and boarded floors.

2118—Cochabamba—2118

between Pasco and Rincon

Upset price: $8,500 m/n

If I take into consideration the splendid state of the property, the rent it gives ($125 m/n per month) and the pretensions of the owners in that neighbourhood, the conviction is forced upon me that the upset price of $8,500 m/n is ridiculously and absurdly low.

It is only because the owner is forced to leave the country that such an opportunity as this could arise.

On Sunday, 11th of September

at 1 o'clock sharp in the afternoon

I will proceed to sell at public auction with the upset price of $8,500 m/n this magnificent property, which can be seen any day and evening after Thursday 8th.

Titles are perfect, and can be seen at my offices

566—PIEDAD—566

The furniture which adorns this house will also be sold by auction, according to the aviso following this one, on the same date, Sunday, 11th inst.

The sale will commence at 1.30 p. m., after selling the property.
